

Heat Pump Rebate Program Accelerating Clean Energy Savings (ACES)

The ACES heat pump rebate program could be your ticket to saving big on heating costs! There is **no income cap** on the \$4,000 rebate, with even larger rebates for households that meet lower income requirements. This program is available to households switching from fuel-based (oil, gas, propane, and wood) heating systems to heat pumps in communities from Metlakatla to Kodiak!

Goal: 6000 heat pumps installed

Where: 43+ coastal Alaska communities

When: 2025-2029

Rebate Levels:

\$4,000
(no income cap!)

\$6,000

\$8,500

Why Heat Pumps?

- Highly efficient in coastal AK's maritime climate
- Significantly reduces CO2 emissions
- 25-75% savings on annual heating costs*

*Heating cost savings could be outside of this range depending on community kWh rates and fuel prices
